Hartford, Wis., February 13, 2008 – The Broan Elite XE Trash Compactor helps to lighten the load on local landfills more than any other compactor on the market with a compaction ratio of 6-to-1. Compacted trash also reduces the volume for garbage pick-up, which provides a cost savings for consumers who pay by the load. Microban® antimicrobial protection fights the growth of odor- and stain-causing bacteria while an automatic odor control disc chemically reduces garbage odor.
